

To  
Prof. Kosta Boshnakov  
President of the John Atanasoff Society of  
Automation and Informatics

To  
The Organizers and participants of the  
International Scientific Conference  
"Automatics and Informatics 2022"

Dear Professor Boshnakov,  
Dear members of the Society of Automation and Informatics,  
Dear organizers and participants of the conference,

It is my honor and pleasure to congratulate you on your occasion professional feast - the Day of the Information Society in Bulgaria. I admire your ambition to share all the innovations that can make the activity of the union more effective.

I am convinced that holding the fifty-fifth edition of the International Scientific Conference "Automatics and Informatics" in the days of John Atanasoff, increases the prestige of Bulgarian scientists.

For more than half a century, fundamental science and applied research in the field of information and communication technologies, automation, robotics and artificial intelligence have played a leading role in the progress of humanity.

In these sectors, internationally leading scientific schools with outstanding achievements and rich traditions have established themselves and continue to develop in our country.

I would like to express my gratitude to the members of SAI "John Atanasoff" for their overall contribution, thanks to which our country forms a potential that allows not only to compete with other countries of Europe and the world, but also to build on the achieved results in the field of computer science.

I am convinced that, as before, reports and results will be presented at the 55th International Scientific Conference "Automatics and Informatics", which will also give new directions to the Bulgarian scientific community towards active research and development activities and application of innovations in practice.

I wish you successful and fruitful work at the International Scientific Conference "Automation and Informatics 2022"

6th October 2022

Rumen Radev  
PRESIDENT OF THE REPUBLIC OF BULGARIA
